Optimize your results by using the following search features:

Search box – use screen options to change your search.

Show Hot Articles – displays related articles.

Sort – Relevance ranking is the default sort. Use the drop down box for other options.

Limits – refine results by date, major subject, or other limit.

Cited by – displays citing references. Use the back button to return to search results.

Full text available - click on **View or Request Full Text**, then click **GO**. Article will open in a new tab.

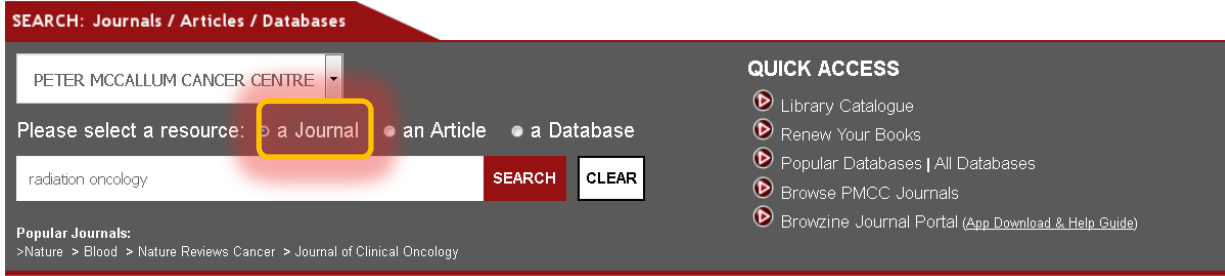

No full text – click on **View or Request Full Text**. Request form will open in a new tab. Citation information will auto populate the form. Complete form & submit.

Find a Journal

Search for a specific journal

1. Select hospital or service from the drop down list, the select **Journal** search.
2. Enter journal abbreviation, full, or partial title, or use the A - Z links. If prompted, enter your library barcode.

3. When the journal list displays, click on the **journal title** to proceed.
4. Check **availability**. Many journals are available from multiple sources. Look for **start date, end date & embargo information** (full text not available).

Source: Advances in Radiation Oncology [2452-1094]

Full Text

▶ **Full text available via Elsevier Science Direct Open Access Journals**

Year: Volume: Issue: Start Page:

Available from 2016 volume: 1 issue:1
Note:Free/Open Access.

▶ **Full text available via PubMed Central**

Year: Volume: Issue: Start Page:

Available from 2016 volume: 1
Note:Free/Open Access.

Request Article

▶ **Click here to request an article or a book chapter**

Start & End dates are shown for each entry

Check for Embargoes (full text not available)

Check Print Collection start & end dates

Use the Request link if the article is not available online

5. Click **GO**, or alternatively enter known citation data to navigate to a specific citation

In most cases, the article opens directly in a new tab, however this is dependent on the publisher's site & sometimes more steps are required to get to the article.
